

VZ Active vibration isolation platform

LIVA-EP
利瓦环保

VZ Active vibration isolation platform

Feature:

Load capacity 500 ~ 800 kg

Inflation pressure up to 0.6Mpa (6kg / cm²)

Natural frequency Vertical direction <0.6HZ Horizontal direction
<0.8HZ

Table flatness 0.10 mm / m²

Table hole from the 25mm / 26mm

Applications:

★Optical microscopes、Precision inspection stations、Highly sensitive laboratory equipment、High-accuracy measuring instrument

Specifications:

VZ active vibration isolation platform to be customized, size specifications can be produced according to actual needs.
