

# LV Hanger Mounts

LIVA-EP  
利瓦环保

## Feature:

- ★ Neoprene spring cup with a projecting bushing to prevent steel-to-steel contact.
- ★ Neoprene bushing for upper mounting rod.
- ★ Noise and vibration isolation.
- ★ Wide load range available.
- ★ With V-type open design, the upper part of the shock absorber can be fixed directly on the floor or channel, saving installation space and time.

## Applications:

- ★ Hanging ceilings, HVAC ducting networks, Piping networks, Other suspension applications, Fans, Air units

Type	Rated Capacity KG	Dimensions (mm)
